

Clamps • with nose, closed

23170.0023

Product Description

This clamp (clamping claw) according to DIN 6317 with nose is mainly used in mechanical clamping technology for clamping workpieces. Due to the closed design of the clamp, it is suitable for use with rotating workpieces. Thanks to the closed slot, the clamp is suitable for an application with rotating workpieces.

Material

- Heat-treated steel, varnished
