

Hinges • with adjustable friction resistance

25160.0505

Product Description

These Hinges are characterised by their compact and stable construction, and by the ability to set the friction.

The design ensures that the hinge has no play (either radially or axially).

Material

Friction cone

- Thermoplastic POM

Body

- Zinc die-cast, plastic coated, black, similar to RAL 9005, matt structure

Hinge pin

- Steel, zinc-plated by galvanization, passivated

Nut

- Steel, zinc-plated by galvanization, passivated

Assembly

Installation of the hinge on the component.

The hinge's ease of pivoting can then be adjusted by tightening or loosening the hinge pin. This allows a constant braking torque to be applied throughout the pivot range.

Compliance

RoHS compliant

Contains lead - compliant according to exceptions 6a / 6b / 6c.

Contains SVHC substances >0,1% w/w

Contains lead - SVHC list [REACH] as of 23.01.2024.

Contains Proposition 65 substances

Lead can cause cancer and reproductive harm from exposure
