Lateral Plungers • with plastic spring and pin - INCH 2B150.0310

Product Description

Material Body • Aluminium Al

Spring

plastic

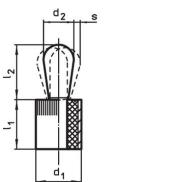

Pin

· Stainless steel

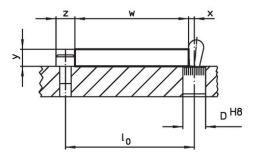

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Assembly
Installation by pressing in. Formula for calculating the center distance for the mounting hole: $l_0 = z/2 + w + x$, l_0 = center distance, y = workpiece height, w = workpiece length, x = coordinate dimension, s = stroke, z = stop diameter Calculation dimension x: y greater than or equal to $l_2 - d_2/2$, then $x = d_2/2 - s$ or y smaller than $l_2 - d_2/2$, then $x = d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]$
Characteristic
Version light spring load = blue spring

Drawing

*some sizes (see chart) have a deviating pin shape

Compliance

RoHS compliant

Compliant according to Directive 2011/65/EU and Directive 2015/863.

Does not contain SVHC substances

No SVHC substances with more than 0.1% w/w contained - SVHC list [REACH] as of 23.01.2024.

Does not contain Proposition 65 substances

No Proposition 65 substances included. https://www.P65Warnings.ca.gov/

Free from Conflict Minerals

This product does not contain any substances designated as "conflict minerals" such as tantalum, tin, gold or tungsten from the Democratic Republic of Congo or adjacent countries.
