Spring Plungers • headed, with ball and slot 22050.0935

Product Description

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection. Precise screwing depth due to head.

Material

Body

· Free cutting steel, blackened

· Ball-bearing steel, hardened

Spring

Stainless steel

Assembly

Respect dimension I₃ for M 4 / M 5.

Standard spring load: no marking

Standard spring load

Heavy spring load

More information

Notes

Special types on request. Spring plungers are specially tested for spring range and forces.
