# **Spring Plungers** • with internal hexagon and seal 22060.0150

# **Product Description**

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection. By means of the seal, liquid cannot penetrate into the spring plunger.

#### **Material**

## Pin

· Free cutting steel, hardened, blackened

#### Seal

NBR

## Body

· Free cutting steel, blackened

#### Spring

Stainless steel

## **Assembly**

Spring plungers can be mounted and removed by means of the slot or internal hexagon. Please use a special assembly tool for mounting with a slot (pin side).

## Characteristic

Heavy spring load: marked with two lines

Standard spring load

Heavy spring load

## More information

#### **Notes**

Special types on request.

Spring plungers are specially tested for spring range and forces.

#### References

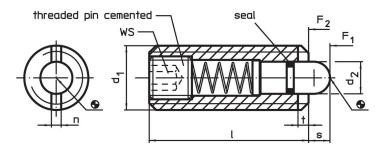

Compared to EH 22060., i.e. "no seal", there are deviations in dimension I, spring load and temperature range.

Thread lock on request, please refer to appendix - Technical Data -
