Lateral Plungers • with thread, without seal, with female thread
22150.1320

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Material

Body
• Steel, zinc-plated

Threaded washer
• Steel, blackened

Spring
• Steel, zinc-plated by galvanization

Assembly

Formula for calculating the center distance for the mounting hole:
$l_0 = z/2 + w + x$,
l_0 = center distance,
y = workpiece height,
w = workpiece length,
x = stroke,
z = stop diameter
Calculation dimension x for workpieces:
$x = d_2/2 - s$
Lateral plungers are installed by screwing in by means of a mounting tool.
Characteristic

Version heavy spring load = spring from steel, zinc-plated by galvanization

More information

Notes

Individual set screws can be screwed in the plate with threaded hole.

Application example

Compliance

RoHS compliant
Contains lead - compliant according to exceptions 6a / 6b / 6c.

Contains SVHC substances >0,1% w/w
Contains lead - SVHC list [REACH] as of 23.01.2024.

Contains Proposition 65 substances

⚠

Lead can cause cancer and reproductive harm from exposure
