

## Hinges • stainless steel, elongated on both sides

25162.0130

## Product Description

These hinges from stainless steel are characterised by the compact design. The hinge pins are form-fit pressed and are therefore suitable for use in case of strong vibrations and shocks.

Appropriate friction pairings of the hinge components and the lubrication reduce abrasion to a minimum.

The version with centering steps avoids lateral slipping under high loads and thus protects the fixing screws from unacceptable lateral forces.

## Material

## Body

- Stainless steel 1.4405, plastic-coated, black similar to RAL 9005, structure matt

## Axis

- Stainless steel
