# **Spring Plungers •** with collar and ball, front slot 22075.0610

# **Product Description**

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection. This spring plunger is characterised by the collar with front slot. This makes it suitable for applications that require a flat surface when screwed in.

#### Material

#### **Body**

· Thermoplastic POM, blue

· Stainless steel, hardened

## **Spring**

· Stainless steel

#### More information

#### **Notes**

Special types on request. Spring plungers are specially tested for spring range and forces.

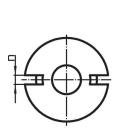

#### References
