# **Spring Plungers** • smooth, without collar 22080.0356

# **Product Description**

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

### **Material**

### Body

· Stainless steel 1.4305

· Stainless steel, hardened

# Spring

Stainless steel

### **Assembly**

The locating hole has to be adapted to each individual application case. We recommend an F8 size location hole for easy assembly and a H9 size when tight fit is required.

# Characteristic

Heavy spring load: marked with two lines

Standard spring load

Heavy spring load

### More information

### **Notes**

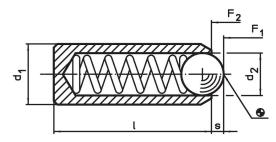

Special types on request. Spring plungers are specially tested for spring range and forces.

Calculation of indexing resistance, please refer to appendix - Technical Data -

### **Further products**

· Spring Plungers, smooth, without collar, with moveable ball
