

Lifting Pins • self-locking, with handle

22351.0020

Product Description

The carrying element can be used universally for transporting workpieces, workholding systems, loudspeaker boxes, containers etc. using manual force.

Corrosion and weathering resistant, thus also suitable for outdoor application. Very solid, precipitation-hardened pin with an extreme load capacity.

Material

Pin part

- Stainless steel 1.4542, precipitation-hardened

Handle

- Aluminium, blue anodised

Press button

- Aluminium, blue anodised

Spring

- Stainless Steel

Assembly

Simple H11 boreholes are sufficient.

Mounting:

1. Press in the button and hold it down
2. Insert the lifting pin
3. Release the button (The button must be back in its original position)

Dismantling:

1. Press in the button and hold it down.
2. Remove the lifting pin.
3. Release the button.

Operation

Each lifting pin contains an operating manual.
This document is also available for download
as PDF.
