

SIMPLEX soft-face mallets • Rubber composition, with "Stand-Up"; with cast iron housing and high-quality extra short wooden handle

3022.282

Product Description

This SIMPLEX soft-face mallet comes with an extra short handle. The compact design keeps the end of the handle from hitting the ground - for instance during paving work.

The SIMPLEX series 3022 is equipped with rubber composition inserts on either side.

This medium hard rubber insert (series 3202) is an absolute top seller. Ultra low-wear, impact cushioning and odourless, it offers a much longer service life than a conventional rubber hammer. Halder has now developed this top seller further: Boasting an ingenious shape, the rubber insert with "stand-up" (3202.260) allows the hammer to stand securely on its head and reduces the need to bend over, making it possible to work in a much more ergonomic and back-friendly manner.

Made of cast iron, the housing comes with an integrated handle protection sleeve that provides for a high level of break resistance.

Damping vibrations and shaped ergonomically, the high-quality and extra short wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted.

This translates to savings in both money and resources.

Product features:

- Further development of Halder's top seller: The rubber insert with "stand-up" (3202.260) ensures back-friendly working and reduces the need to bend over.
- SIMPLEX soft-face mallet D80mm with the insert combination of rubber composition / rubber composition with "stand-up" (black, medium hard, impact cushioning, odourless, low-wear).
- Extra short handle, end of handle not hitting the ground.
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- Cast iron housing with integrated handle protection sleeve and excellent break resistance.
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.

Application Areas

Gardening and landscaping, paving, curbstone setting, masonry and stair work, fence construction, scaffold construction, tent construction, prefabricated house construction, carpenter's work, maintenance / repair work

Material

Handle

- Wood

insert 1

- Rubber composition, black, with "Stand Up"
- Medium hard
- impact cushioning
- Odorless
- Low-wear

insert 2

- Rubber composition, black
- Medium hard
- impact cushioning
- Odorless
- Low-wear

Housing

- Cast iron
